Informed Consent
To the patient: Please read this entire document prior to signing it. It is important that you understand the information contained in this document. Please ask questions before you sign if there is anything that is unclear.

The nature of the chiropractic adjustment:
The primary treatment used by doctors of chiropractic is spinal manipulation therapy. I will use that procedure to treat you. I may use my hands or a mechanical instrument upon your body in such a way as to move your joints. That may cause an audible "pop" or "click", much as you have experienced when you "crack" your knuckles. You may feel a sense of movement

Analysis/Examination/Treatment:
As part of the analysis, examination, and treatment, you are consenting to the following procedures

- Range of motion
- Orthopedic Testing
- Basic Neurological Testing
- Muscle Strength Testing
- Ultrasound
- Hot/Cold Therapy
- Posture Analysis Test
- EMS
- Other: all physiotherapy in the office including but not limited to laser, PEMF, compression boots, traction, etc…….

The risks inherent in chiropractic adjustment and risk of physical therapy:
As with any healthcare procedure, there are certain complications which may arise during chiropractic manipulation and therapy. These complications include but are not limited to: fractures, disc injuries, dislocations, muscle strain, cervical myelopathy, costovertebral strains and separations, and burns. Some types of manipulation of the neck have been associated with injuries to the arteries in the neck leading to or contributing to serious complications including stroke. Some patients will feel some stiffness and soreness following for the first few days of treatment. The Doctor will make every reasonable effort during the examination to screen for contraindications to care; however, if you have a condition that would otherwise not come to the Doctor's attention it is your responsibility to inform the Doctor.

The probability of those risks occurring:
Fractures are rare occurrences and generally result from some underlying weakness of the bone which we check for during the taking of your history and during examination and X-ray. Stroke and/or arterial dissection caused by chiropractic manipulation of the neck has been the subject of ongoing medical research and debate. The most current research on the topic is inconclusive as to a specific incident of this complication occurring. If there is a causal relationship at all it is extremely rare and remote. Unfortunately, there is no recognized screening procedure to identify patients with neck pain who are at risk of arterial stroke.

The availability and nature of other treatment options:
Other treatment options for your condition may include:

- Self-administered, over-the-counter analgesics and rest
- Medical care and prescription drugs such as anti-inflammatory, muscle relaxants, and painkillers
- Hospitalization
- Surgery

If you chose to use one of the above noted "other treatment" options, you should be aware that there are risks and benefits of such options and you may want to discuss these with your primary physician.

The risks and dangers attendant to remaining untreated:
Remaining untreated may allow the formation of adhesions and reduce mobility which may set up a pain reaction further reducing mobility. Over time this process may complicate treatment making it more difficult and less effective the longer it is postponed.

As of this date, I have the legal right to select and authorize health care services for the minor child above. (If applicable) under the terms and conditions of my divorce, separation or other legal authorization, the consent of a spouse/former spouse or other parent is not required. If my authority to so select and authorize this care should be revoked or modified in any way, I will immediately notify this office.

PHYSICAL THERAPY

Response to physical therapy intervention varies from person to person; hence, it is not possible to accurately predict your response to specific modality, or exercise protocol. C.P.P.T. does not guarantee that your reaction will be to a specific treatment, nor does it guarantee that the treatment will help resolve the condition that you are seeking treatment for. Furthermore, there is a possibility that the physical therapy treatment may result in aggravation of existing symptoms and may cause pain or injury. It is very important to communicate with your treating physical therapist throughout your treatment.

I have read this consent form and understand the risks involved in physical therapy and agree to fully cooperate, participate in all physical therapy procedures, and comply with the established plan of care. I authorize the release of my medical information to appropriate third parties.

PHYSICIAN'S LIEN

Attorney: _____ Date:_____

Patient Name: _____

I do hereby authorize Synergy Chiropractic and Physical Therapy to furnish you, my attorney, with a full report of their examination, diagnosis, treatment, prognosis, etc., of myself in regard to the accident in which I was recently involved.

I hereby authorize and direct you, my attorney, to pay directly to said doctor such sums as may be due and owing him for my medical service rendered to me both by reason of this accident and by reason of any other bills that are due to their office and to withhold such sums from any settlement, judgement or verdict as may be necessary to adequately protect said doctor. And I hereby further give a Lien on my case to said doctor against any and all proceeds of my settlement, judgment or verdict which may be paid to you, my attorney, or myself, as the result of injuries for which I have ben treated or injuries in connection therewith.

I agree never to rescind this document and that a rescission will not e honored by my attorney. I hereby instruct that in the event another is substituted in this matter, the new attorney shall honor this lien as inherent to settlement and enforceable upon the case as if it were executed by them.

I fully understand that I am directly and fully responsible to said doctor for all medical bills submitted by them for service rendered me and that this agreement is made solely for said doctor's additional protection and in consideration of his awaiting payment. And I further understand that such payment is not contingent on any settlement, judgment or verdict by which I may eventually recover said fee. I also understand my account will be charged interest at the rate of 1.5 % monthly after 90 (ninety) days from my initial office consultation.

In the event any party to this lien commences legal proceedings against the other to enforce the terms hereof, or to declare rights there under as the result of any breach of any covenant or condition of this lien, the prevailing party in any such proceeding shall be entitled to recover from the losing party its cost of suit, including reasonable attorney's fees, as may be fixed by the court.

Please acknowledge this letter by signing and returning to the doctor's office. I have been advised that if my attorney does not wish to cooperate in protecting the doctor's interest, the doctor will not await payment but will require me to make payments on a current basis.
